ABUL QASIM BIN TARIQ

FULL-STACK DEVELOPER | REACT | NEXT.JS | TYPESCRIPT | NODE.JS

Karachi, Pakistan | +92 3178121752 | qasimbhallli6547@gmail.com

LinkedIn: Abul-qasim-bin-tariq | GitHub: AbulQasimbintariq

PROFESSIONAL SUMMARY

Junior Full-Stack Developer focused on building responsive web applications using React, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Hands-on project experience with REST APIs, authentication, role-based access control, database operations, deployment, and AI integrations using Google Gemini and OpenAI technologies. Brings additional experience in team coordination, operational management, cash handling, and customer service.

TECHNICAL SKILLS

Languages & Web: JavaScript, TypeScript, SQL, HTML5, Tailwind CSS
Frontend: React.js, Next.js, Responsive Web Design, Framer Motion
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, API Integration
Databases & ORM: MongoDB, MongoDB Atlas, Mongoose, PostgreSQL, Supabase, SQLModel
Authentication & Validation: JWT, bcrypt, Better Auth, Supabase Auth, Role-Based Access Control, Zod
AI & Deployment: Google Gemini, OpenAI technologies, Vercel, Git, GitHub
Development Practices: Component-Based Architecture, API-Driven Development, Monorepo, Debugging, Environment Configuration

PROJECTS

OrderByYourself | AI-Powered Restaurant Self-Ordering Platform

- Developed a full-stack restaurant self-ordering application using Next.js, TypeScript, Node.js, Express.js, and MongoDB.
- Implemented cart management, order creation, cash-payment slip workflows, and order-status tracking.
- Integrated Google Gemini for AI-powered product analysis and assistant functionality.
- Designed responsive interfaces and prepared the application for Vercel deployment.

AI Job Portal | Full-Stack Recruitment Platform

- Developed a role-based recruitment platform using Next.js, TypeScript, Node.js, Express.js, MongoDB, and Mongoose.
- Implemented Admin, Recruiter, and Candidate roles with JWT authentication and secure password handling.
- Built REST APIs with Zod validation, bcrypt, and MongoDB Atlas for authentication and recruitment workflows.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Independent Projects & Development | *2024–Present*

- Build full-stack web applications using Next.js, React, TypeScript, Node.js, Express.js, and MongoDB.
- Develop responsive user interfaces and integrate REST APIs, authentication, role-based access control, and database operations.
- Build AI-enabled application features using Google Gemini and OpenAI technologies.
- Use Vercel, Git, and GitHub to deploy applications and troubleshoot build, configuration, and runtime issues.

Fare Collection Manager | BRT Green Line, Karachi | *Current Position*

- Manage daily fare collection, cash handling, reconciliation, and operational accuracy.
- Coordinate fare collection staff to support efficient service delivery.
- Monitor equipment safety and operational compliance.
- Respond to passenger inquiries and resolve public-facing service issues professionally.
